
A
Single-read estimate
mean recovery 95%
Change in single-read estimate
One-read mutations planted
B
Power (J_H4 wild-type pilot)
unique density (CV 0.95)
clone-weighted frequency (CV 0.94)
read-weighted frequency (CV 1.47)
≈24 mice
Power, 2-fold change
Animals per group
C
UMI consensus (simulated)
every read
UMI consensus
False calls per library
0.7
J_H4 poly
J_H4 low
N114 sub
N114 low
D
Planted indels
false calls/library: J_H4 0.33, N114 0
below the 3-read floor
J_H4 72% at ≥ 3
N114 91% at ≥ 3
Recall
Reads with the indel
E
Recall under consensus
165 molecules per library from 500 reads
Planted mutations recalled (%)
